## Commissioner's SALE OF LAND

Pursuant to a decree of the circuit court of Rockbridge county, entered on the 6th day of September 1901, in the chancery cause of "Katherine J. Entsminger, vs. Jake Vest Entsminger, and others," I shall on Saturday the 23rd day of November 1901, in front of the court house of Rockbridge county, at 12 m., proceed to offer for sale, at public auction, to the highest bidder, a tract of one hundred acres of land, lying on the waters of Moore's creek, in Buffalo District, being what is commonly known as "Moore's spring property," and having been owned by the late Andrew J. Entsminger, in his lifetime. This is a good opportunity for a purchaser to get a good little home. The land is naturally good, and has on it good timber for ties, bark etc.

Terms of Sale:—One fourth in cash, and as to the residue, on a credit of one, two and three years, equal payments, for which deferred payments the purchaser is to give his bonds with good personal security, bearing interest from date. Should the purchaser elect to pay one-third in cash, surety will be dispensed with on the deferred payments.

Oct 19th 1901 FRANK T. GLASGOW, Commissioner.

1 clerk's office of the Circuit Court of Rock Bridge County:—

I, R. Witt, Clerk of the Circuit Court of Rockbridge County, hereby certify that F. T. Glasgow, Commissioner, has given the bond with surety, as required by decree authorizing sale of the property as advertised above.

Given under my hand the 19th day of October, 1901.

Oct 23rd 1901 R. WITT, Clerk

## Why Farmer's Fail

Washington, Nov. 12.—The industrial commission today made public its review of evidence taken before the commission on the subjects of agriculture and agricultural labor. Among other subjects discussed was that of agricultural depression, of which the commission speaks as follows:—

"The cause most often assigned for the depression of agriculture in the Eastern States is the increased production due to the opening of Western lands in advance of the national demand, especially through the agency of liberal land laws and grants of land in aid of railroad construction. The competition of the West has been rendered especially severe by the policy of the railroads in making freight rates relatively low for long distances.

## SOUTH MAKING INROADS.

"The old staple products have thus become unprofitable in the East. It has been necessary for farmers to change their methods and vary the character of their crops, taking up especially the culture of products which are not easily transported long distances. Thus truck farming has largely superseded cereal growing along the Atlantic coast, but farmers in the North Atlantic States do not complain of the severe competition of States farther South in this industry and much the same may be said of fruit growing. Even so perishable a commodity as milk is transported much longer distances than formerly since the introduction of refrigerator cars.

## BEHIND THE TIMES.

"Another cause which several witnesses assign for the unsatisfactory condition of agriculture in some parts of the country is the conservatism of the farmers, their lack of quick adjustment to changed conditions, and lack of effective business planning and management. The farmers, as a class, have not kept up with the times, but have raised the same crops year after year without regard to changes in supply and demand. This undue conservatism and lack of managing ability among farmers is especially emphasized with reference to the Southern States, and is given as an explanation of the too exclusive attention to cotton production prevailing there.

## SCARCITY OF MONEY.

"Another cause assigned for agricultural depression in the South is the scarcity of money, the difficulty of borrowing on real estate securities and the consequent high rates of interest. It seems to be possible, however, to borrow money in the South at somewhat lower rates of interest than formerly. The decline in the price of cotton is, of course, an important element in the depression of agriculture in the South. The inefficiency of negro labor is assigned as another cause.

## LABOR TOO CHEAP.

"On the other hand, it is affirmed that there is too much good cheap labor in the South. An abundance of cheap labor is said to be unfavorable to success of agriculture, because to results in planting too large an acreage and in neglect of personal attention by the planter.

"Against the charge that farmers are unduly conservative is put the counter charge that they turn from one crop to another without sufficient regard to the suitability of the climate and soil or to the conditions of the market."

## DUTY.

It is a duty we owe to ourselves, as well as to those who are dependent upon us, to preserve our health and strength. Aunt Rachel's Bitters are found to be an unfailing and valuable assistant in maintaining the vigor of the system, and in keeping it in tone. Excellent for those subject to malarial fevers.

## A WORTHY SUCCESSOR.

"Something new Under The Sun."

"All Doctors have tried to cure catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures a curable, but permanently curable disease, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as 'Snuffles' the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Catarrh cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or Cold in the Head.

Caution when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the Guaranteed Catarrh Cure.

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E 350, EDWIN B. GILES & COMPANY, 3320 and 2332 Market Street, Philadelphia.

## SCENE IN A PORTUGAL WINERY.

In the mountains, at the Quinto do Sasso, Portugal, a famous Port Wine district where the custom of treading the grapes for Port Wine is still in vogue. From ten to a dozen men or women for each gang in turn continue the treading, day and night, during the four or five weeks vintage. Some of the treading vats are large enough for three separate rows of ten men each, who with their white breeches well tucked up, their arms on each other's shoulders, raise and tread their feet alternately, with song and shouts to keep the lazier ones up to the work, and a band with string instruments enlivens the hours.

## Speer, of New Jersey, Uses Bitters instead of Feet.

It is from this district the vines were imported over forty years ago that now fill the vineyards of the Speer Wine Co. at Passaic.

At Passaic the same kind of grapes are crushed between large rollers of rubber, revolved by steam. This is the only place in this country where the real genuine Port Wine is made from the Oporto grape—and they are growing in the vineyards.

These vineyards extend over one of the Main avenues of Passaic, and comprise one of the finest vineyards in the world. The soil being rich in iron makes the wine medicinal use.

Are well known to be of the oldest and most refined Wines in America, and to any wines in the world. They consist of Port, Chateau, Chateau, Sauterne Wines, and all the famous Wines of France. All of Speer's Wines and Brandy are of the highest quality and delicate.

Every family should have a bottle of each variety of Speer's Wines and Brandy for medicinal or family use.

**WINE OF CARDUI**

A SURE MEDICINE.

HANDSON, VA., Dec. 21.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui has done more for me than anything else.

MRS. CAROLINE EVANS.

**WINE OF CARDUI**

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth. Recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine to its perfect use.
